SUPPLEMENT

25X1X6

25X1A6a

Work is currently being done to classify the types of industrial statistics with reference to the two-year plan; it has not yet been decided whether these will be published. For example, in category one, figures on the production of gasoline, armaments, and certain electrical devices may not be published. Category two will list such industries as automobiles, steel, mines, etc., where figures released can be computed only by the individual factory and in terms of the percentage of the plan, and not by number of units produced or by nation-wide industry.

This document is hereby recommended to CONFIDENTIAL in accordance with the letter of 10 Oct 1973 from the Director of Central Intelligence to the Archivist of the United States.
